

FORWARD CURVED SW-SI UTILITY BLOWERS

MODEL UXFD

FEATURES

- Vented Motor and Drive Compartment Cover for Safety and Weather Protection
- Standard Top Horizontal Discharge Easily Field Rotated to 8 Positions
- Available in CCW (standard) or CW Rotation
- Enamel Finish Standard

Discharge is top horizontal. Can be easily field rotated. Standard rotation is counterclockwise (CCW). Allow 4-6 weeks lead time for clockwise rotation. Power rating (BHP) does not include drive losses. Performance shown is for installation Type B - Free inlet, Ducted outlet. Performance ratings do not include the effects of appurtenances in the airstream.

Additional UXFD sizes continued on pages 3 & 4.

Performance ratings do not include the effects of appurtenances in the airstream.

COATING SPECIFICATIONS AND RECOMMENDATIONS:

Eisen-Heiss - Especially effective metal protection for the chemical, paper/pulp, food processing and drug industries. Should not be used on surfaces that, in use, will exceed 160°F or for immersion conditions.

Heresite - Will withstand exposure to practically all corrosive atmospheres with the exception of strong alkalis, strong oxidizers, and wet bromine, chlorine and fluorine in concentrations greater than 100 ppm. Maximum temperature resistance is 450°F.
